W. A. MOODY C. B. LIBBY H. D. SAWYER

Selectmen's Report

In presenting this report the selectmen wish to call the attention of the town to a matter of particular interest viz:-
The amount of insurance on the Town House.

We find that for many years the amount of insurance carried has only been \$2500.00 which as you are all well aware would do but a very little at the present time to replace the building should it be destroyed by fire.

We have placed \$4000.00 on the building for three years at a cost of \$300.00 thereby saving the cost of six months insurance had it been renewed annually and that nothing extra is required for a motion picture permit in Glover Hall.

This item and the diphtheria expense which was \$136.65 will account largely for the overdraft in the Miscellaneous Account.

OFFICERS SALARIES

1923

Aaron Starrett, Assessor Balance 1922	\$1 75

	State charges for surveying and inspection not yet received	
	Amount expended	<hr/> \$2679 92
	Balance	54 88
		<hr/> \$2734 80

Amount of joint fund	\$2546 60
Appropriation by the town from which nothing was received from the state	168 40
Balance last report	19 80
	<hr/>
	\$2734 80

At the annual town meeting the town appropriated \$1200.00 for State Aid Road construction. After making the full apportionments of State Aid under Section 20, the State Highway Commission found it necessary to scale down all additional apportionments under Section 21 to 71.9 per cent and also scaled down at the same rate the additional amount appropriated by the town. The joint fund for 1923 being made up as follows:-

	Town		State	Joint Fund
Sec. 18	\$ 600 00	Sec. 20	\$ 798 00	
Sec. 21	431 40	Sec. 21	717 20	
	<hr/>		<hr/>	
Total	\$1031 40		\$1515 20	\$2546 60

Leaving a balance of \$168.40 of the amount appropriated by the town under Sec. 21 for which nothing would be received from the State.

After surveying the uncompleted section from Hanlys Corner to Thomaston line, it was found to be 2550 feet. A special meeting was called and it was voted to expend the full amount if necessary on that section in order to complete it if possible which was accordingly done at a cost of \$2679.92 as will be seen by the report, it being necessary to use nearly all of the balance of the town appropriation.

FISH ACCOUNT

Whole number of fish taken	257,350

SCHOOL OFFICIALS

MEMBERS OF SCHOOL COMMITTEE

W. R. Vinal, Chairman, term expires in March, 1924.

Mrs. Helen Wentworth, term expires in March, 1925.

W. A. Moody, term expires in March, 1926

Regular meetings of the school committee are held on the Thursday preceeding the last Saturday of each month.

School bills should be in the hands of the superintendent by Thursday if an order is desired the last Saturday.

TRUANT OFFICER

William H. Robinson

CALENDAR FOR GRADE AND RURAL SCHOOLS

Spring term begins March 24, and closes June 13, 1924.

Fall term begins September 2, and closes December 5, 1924

Winter term begins December 29, 1924 and closes February 20, 1925.

The high school calendar is the same as above except that the winter term does not close until March 6, 1925.

SCHOOL HOLIDAYS

May 30, Memorial Day; September 1, Labor Day; October 13, Columbus Day coming on Sunday; Armistice Day November 11 and February 22, Washington's Birthday.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of Warren:

I have the honor of presenting for your consideration my seventh report of the schools of Warren. This is the sixteenth report since Warren and Union united as a district for supervision.

The past year has been marked by no outstanding progress but our schools have been, all things considered, the most satisfactory they have been under my supervision. In the village schools we have really excellent teachers of whose work we have every reason to be proud. In our rural schools we have also teachers whose work has been very unusual for untrained teachers.

Most gratifying has been the progress made by those pupils who as a result of closing schools have been attending our excellent village schools. In small rural schools a child is often in a class by himself and however poor work he may do thinks he is doing well. When he gets into a larger class and really sees for himself just how poor work he is doing the result is surprising. I only wish that parents and citizens might see and know how much rural pupils do improve by attending the schools at the village. I have been interested to see the change

in one boy especially who up to this year has been in a class by himself and had always done poor work despite the best efforts of different teachers. I have been surprised indeed to find that he now does excellent work and seems like a different boy.

OUR GREAT NEED

Our high school suffers for want of more room and a third teacher. The situation has been explained in previous reports and last year a committee was appointed to look into the matter. Desks have been put into the main room until no more space is available for them. The recitation room cannot be used for larger classes than it has at present yet the classes continue to increase in number each year. This room too is only a coat room thru which there is frequent passing during class periods. The laboratory was built for eight pupils now has to be used by nearly three times that number with the result that not more than one half of the laboratory work that should be done can be accomplished. In a school as large as ours is at present the work cannot be satisfactorily done by two teachers. A future need that must soon be considered is a third teacher. Not only are longer class periods needed but penmanship, type-writing, and stenography, should be offered our students.

CLOSING OF SCHOOLS

Anderson school had last year an attendance of but eight pupils. In endeavoring to plan this school for this year, Clifford Mank kindly consented to send his two boys Harry and Llewellyn to the Libby school. This left but six pupils to attend this school; Wesley Tolman, Iha Hall, Glenys and Roselle Kalloch, and Elmer and Wilfred Erkill. The parents were con-

sulted and the committee decided to close this school and Frank Teague was hired to transport these pupils and the Sterling school pupils whom Mr. Brackett has so faithfully transported for several years.

Starrett school also had last year but six pupils in attendance and Arne Puolakka in the fall went to Massachussetts thus leaving but five pupils to attend this school and it was closed by the committee and the pupils have been transported to the village by Willis Moody.

By the closing of these two schools the town will be saved at least \$300. 00. And what is far more important than money saved the town by the arrangement, these children have had the privilege of attending our excellent village schools. It is fully realized how early some of the children have to leave home in the morning and that they arrive home late at night during the hardest travelling yet we feel that the progress of these children in a larger school with a trained teacher fully compensates them for the inconvenience and time spent on the road.

Stone school had last spring term an attendance of but seven pupils and one of these Ella Hill, well passed her examinations for high school there were but six pupils to attend this school. It was hoped that this school also might be closed but the distance was such and the children so young that this seemed inadvisable. By special permission of the State Department of Education arrangements were made under the circumstances to have the school at the home of Charles French and Mrs. French was engaged as a teacher. This arrangement has been satisfactory and the school has been well taught by Mrs. French.

ATTENDANCE

The attendance at most of our schools has been unusually good as is shown by the statistics for each school at the close of this report. In some schools, however, it should be improved, especially by the children, in most cases, in a few families. As the State School Fund is now divided, every day that a child is in school means that he is helping to add to our allotment of that fund and every day that he is not in school means that the town will not get money which it would receive were he in school. More important than the financial gain to the town is the gain to the boys and girls who will soon be citizens and the better their education the better citizens will they become, and the better equipped will they be to live happy and useful lives. Not only should parents keep these facts in mind but all citizens as well and by saying a word when needed help to keep all of our boys and girls in school every day when it is possible for them to be there.

TARDINESS

Tardiness in some of our schools has been reduced to a minimum as is shown by the statistics, Malcolm Corner and Intermediate schools having but eleven instances of pupils coming in late for the year. In the high school and some of our rural schools, however, despite the best efforts of the teachers, the tardiness problem is getting serious and must be corrected. This tardiness is confined, for the most part, to a few children, who are tardy in some cases almost daily.

Few parents realize that the cost for each pupil for the year in the Common schools was the past year \$53.30, and for each high school pupil \$48.63 for the year. It surely seems a

waste of this money not to have each of these pupils so benefited not to be in school on time and at every session possible.

The school dollar was divided the past year as follows: Teachers 47 cents, conveyance 15, fuel 3, books and supplies 6½ repairs 3½, high school 20, and supervision 5.

WARREN SCHOOL FUND

Few towns in the state are as fortunate as is Warren in having a Town School Fund from which the town will receive this year, as it did last, \$500.00. This fund is at present under the care of Aaron Starrett. Aid is also received from an Academy fund which is in charge of R. J. Andrews, A. C. Burgess, Dr. F. G. Campbell, S. R. Copeland, N. B. Eastman, G. D. Gould, E. E. Jameson, H. Newman, G. G. Teague, R. Walker, and G. W. Walker, as trustees. From this fund the town has for some years received \$150.00 toward the support of the High school. In addition to receiving this amount from this fund all repairs are made on the high school building. This year besides minor repairs a furnace was installed for the Grammar room at an expense of \$184.32 and only last year tablet-arm-chairs were bought for the recitation room at an expense of \$125.00. Thus this year the town will receive \$587.24 from these funds which are due to the wise foresight of past and present town officials.

The money from these funds is especially appreciated this year as \$225.87 less money was received from the state this year than last. This reduction is due to action of the last legislature by which educational activities which usually have been subject to separate appropriation were placed under Common School Fund thus making the School Fund available about

(Page 70)

\$100,000.00 less this year than last. There will be also this same reduction to meet the coming year.

REPAIRS MADE

As was recommended last year a partition has been put thru the middle of the Pt. Pleasant building, a floor laid in the part now used, the windows changed to give proper light, and a closet built in one end with separate passage ways and compartments for girls and boys. The cost of this work was \$205.00.

Water from the town supply has now been installed in the buildings at Hinckley Corner, Malcolm Corner, and at the village. Each school has a bowl and bubbler. This cost \$125.00.

Each of the rural schools have also been supplied with a drinking jar with faucet and paper drinking cups.

NEEDED REPAIRS

Nearly every building badly needs painting on the outside and four of them need to be papered and painted inside.

At the building at Oyster River a closet should be attached.

The Hinckley Corner building needs work done on the sills.

The ceiling of the building at the village must be replastered or covered with Bristol board.

As has been frequently mentioned in previous reports the stoves in the one room buildings should be jacketed.

TESTS AND SCALES

Early in the fall term your superintendent was asked by the State Department of Education to be one of several super-

intendents in the state to use in a few of their schools the Woody-McCall Test in Mind Fundamentals of Arithmetic, the Thorndike-McCall Reading Scale, and the Buckingham-Ayers Spelling Scale. Altho it was only desired to have the results from a few schools, so much interest was shown in the schools in which they were used that they were given in all schools. Different forms of the arithmetic test and reading scales and twenty different words from the spelling scale will be used in June and the results secured compared with those of the fall. This work has the advantage of showing a child where he stands in comparison with others and of giving him an opportunity to compete with himself to see how much he can improve in a school year.

These tests and scales are being used in some of the rural schools of all states and the results are to be used by the National Educational Association.

CONCLUSION

In closing this report I wish to express to the members of the School Committee, Teachers, Citizens, and boys and girls, my appreciation of their unusual spirit of courtesy and co-operation.

Respectfully submitted,

FRANK D. ROWE, Supt.

REPORT OF PRINCIPAL OF THE WARREN HIGH SCHOOL

To the Superintendent, School Committee, and the
Citizens of the Town of Warren:-

In preparing my report for the school year to date, I have dealt with the activities in the following order: scholastic, social and athletic. I have taught since November 6, Mr. Wood conducting the school up to that time, making my period of employment of rather short duration, ten weeks.

I have endeavored to follow as closely as possible, the class work as Mr. Wood had it outlined and to adapt myself to the methods and procedure that he used. Despite these steps however, it is to be expected that the change in teachers has its effect upon the pupils work, especially when the changes was made in mid term.

The daily work has for the most part been satisfactory, the boys and girls manifesting the interest and attention necessary for successful lessons. For several courses a combination of classes is necessary: freshmen and sophomores unite for business arithmetic and general history, the juniors and seniors unite for physics. Under the existing circumstances it is necessary to do this, Miss Baker and I hold daily fourteen recitations out of sixteen periods, but the defects of the practice are obvious, not the least of which are overcrowding of classes and thus loss of interest by the pupils. The daily program is crowded, far to crowded in fact, to insure a satisfactory quality of routine work. The problem has but one answer -- a third teacher. The chemistry and physics laboratory is inadequate for the purpose of carrying on experiments required for college en

trance. In the first place, the room is positively too small, there is scarcely space for six students to work freely and the present physics class numbers twenty. Also, its conveniences as a science laboratory are all too few. It should not be on the top floor of the building, it should have more cupboard and storage space, experiments carried on there disturb Miss Baker's classes below.

It is pleasing to note that there are several in the present senior class who are planning to attend college after graduation from here.

Socially, the high school has not been markedly active this year as yet. This has been due largely to the ravages of the mumps. The senior class play has been delayed several times because of the illness of various participants. In the near future however, it has been planned to produce not only the above mentioned play but one or two others, in addition to several entertainments but recently planned.

Athletically, Warren High School has thus far been fairly successful. We have made a very good showing in both cross country running and basket ball. The former sport especially bringing out some highly promising material. We are now making plans for base ball and track teams, in readiness to take advantage of early spring training and hope to meet with the desired success in our coming athletic contests with other high schools. I wish to take the opportunity here, to thank Miss Baker for her ever-ready and hearty co-operation in all matters pertaining to the interests of Warren High School and to express my appreciation to Mr. Rowe and to the school committee for the earnest support they have given me.

Respectfully submitted,

PAUL HARRIMAN

REPORT OF JOINT COMMITTEE

The joint committee, composed of the Selectmen, School Committee, and Superintendent, appointed at the last town meeting to look into conditions at the high school building and report at next meeting, visited the building February 4th. The serious need of more space in the main room, recitation room, and laboratory, was surprising to them. It was unanimously voted to recommend that the town raise at the next town meeting the sum of \$1000.00 or more towards a fund for a new high school building, this fund to be added to at such time as the town or individuals see fit.

Town Warrant

ARTICLE 1 To choose a Moderator to preside at said meeting.

ART. 2. To choose a Clerk for the ensuing year.

ART. 3. To act upon the report of the Municipal Officers of the town of Warren.

ART. 4. To choose Selectmen, Assessors, Overseers of the Poor, Treasnrer, Town Agent, and School Committee for the ensuing year.

ART. 5. To choose one or more Road Commissioners or take any action relating to the same.

ART. 6. To see if the town will decide on a compensation for the Tax Collector for the ensuing year or take any action relating to the same.

ART. 7. To choose a Tax Collector, Fish Agent, and all other necessary town officers for the ensuing year.

ART. 8. To see what sum of money the town will raise for the support of roads and bridges or take any action relating to the same.

ART. 9. To see what sum of money the town will raise for Cement Sidewalks or take any action relating to the same.

ART. 10. To see what sum of money the town will raise for sidewalks or take any action relating to the same.

ART. 11. To see if the town will raise sufficient money to enable the town to State Aid for highways.

ART. 12. To see what sum of money the town will raise to build State Aid Highways or take any action relating to the same.

ART. 13. To see if the town will raise the sum of \$390.00 for Patrolling the State Highway from Waldoboro line to South Warren bridge or take any action relating to the same.

ART. 14. To see if the town will raise a sum equal to that raised for street lights and hydrants to be used for graveling the roads in the outlying districts of the town or take any action relating to the same.

ART. 15. To see if the town will raise the sum of \$500.00 for the Special Resolve Road from Warren to Union or take any action relating to the same.

ART. 16. To see what sum of money the town will raise for the purchase of Iron Culverts or take any action relating to the same.

ART. 17. To see if the town will raise the sum of \$400.00 for the support of Daniel Jackson or take any action relating to the same.

ART. 18. To see what sum of money the town will raise for the support of poor the ensuing year or take any action relating to the same.

ART. 19. To see what sum of money the town will raise

to pay snow bills the ensuing year or take any action relating to the same.

ART. 20. To see what sum of money the town will raise for miscellaneous expenses the ensuing year or take any action relating to the same.

ART. 21. To see what sum of money the town will raise for officers salaries for the ensuing year or take any action relating to the same.

ART. 22. To see if the town will vote to raise the salary of the treasurer from \$100.00 to \$150.00 for year or take any action relating to the same.

ART. 23. To see what sum of money the town will raise for the support of common schools the ensuing year or take any action relating to the same.

ART. 24. To see what sum of money the town will raise for text books and supplies for high and common schools the ensuing year or take any action relating to the same.

ART. 25. To see what sum of money the town will raise for repairs on school buildings the ensuing year or take any action relating to the same.

ART. 26. To see what sum of money the town will raise for fuel for the high school the ensuing year or take any action relating to the same.

ART. 27. To see what sum of money the town will raise for the high school the ensuing year or take any action relating to the same.

ART. 28. To see what action if any the town will take in regard to the recommendation of the committee appointed to

look into the condition at the high school building or take any action relating to the same.

ART. 29. To see if the town will vote to raise the sum of \$200.00 for gravelling the road from the corner near J. E. Watts toward Camden or take any action relating to the same.

ART. 30. To see if the town will vote to raise the sum of \$50.00 to be expended on the Soldiers' Monument and lot, grading, dressing, keeping the grass mowed, and otherwise improve the appearance of the lot, or take any action relating to the same.

ART. 31. To see what sum of money the town will raise for the care and maintenance of the chemical engine the ensuing year or take any action relating to the same.

ART. 32. To see if the town will vote to have an electric street light placed near the shoe factory and what sum of money they will raise for that purpose or take any action relating to the same.

ART. 33. To see what sum of money the town will raise for electric street lights the ensuing year or take any action relating to the same.

ART. 34. To see if the town will vote to abate the taxes on M. Shortell & Son Inc., shoe manufacturers, for a term of years or take any action relating to the same.

ART. 35. To see if the town will vote to have the town house painted and what sum of money they will raise for that purpose or take any action relating to the same.

ART. 36. To see what sum of money the town will raise to take up town notes the ensuing year or take any action relating to the same.

ART. 37. To see if the town will vote to instruct the Selectmen and Treasurer to hire money necessary for town expenses in anticipation of taxes or take any action relating to the same.

ART. 38. To see if the town will authorize the Selectmen to rent ten hydrants of the Warren Water Supply Co. for one or more years and what sum of money they will raise for that purpose or take any action relating to the same.

ART. 39. To see what sum of money the town will raise for William Payson Post, G. A. R. for the ensuing year or take any action relating to the same.

ART. 40. To see what sum of money the town will raise for the Public Library the ensuing year or take any action relating to the same.

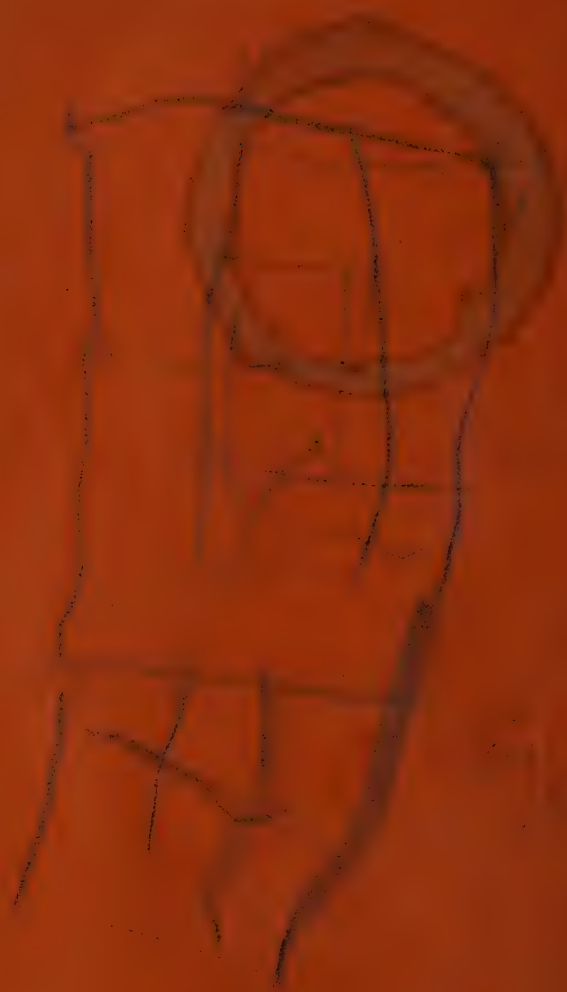

ART. 41. To see what sum of money the town will raise for the support of Tiger Engine Co. and care of Tiger Engine for the ensuing year or take any action relating to the same.

ART. 42. To see if the town will vote to have standard time used in the schools and for all town business the ensuing year or take any action relating to the same.

ART. 43. To see if the town will vote to authorize the assessors to have their next annual report printed in full, showing the valuation and tax of each individual or take any action relating to the same.

Spring term begins March 23, and closes June 12, 1925

Fall term begins September 8, and closes December 12, 1925.

Winter term begins December 28, 1925, and closes March 5, 1926.

School Holidays

April 28th Patriot's Day, coming on Sunday, September 1st, Labor Day; October 12th, Columbus Day; November 11th, Armistice Day; and February 22nd, Washington's Birthday.

Report of the Superintendent of Schools

To the Superintending School Committee and Citizens of Warren:

I have the honor of presenting for your consideration my eighth report of Warren schools.

It is a pleasure to report that the schools have completed another successful year and are above their standard. This is due in a large measure to that spirit of co-operation that has been shown on every hand by Citizens, Parents, Pupils, Members of the Committee, and Teachers. Educational advancement cannot be brought about by one factor alone. It takes superintendent, committee, teachers, pupils, parents, and citizens, all the forces in town working together to really progress educationally as we have the past year.

High School Fund Started

Especially encouraging was the action of Citizens in raising \$1000.00 to start a fund for a high school building as recommended by the committee appointed to look into conditions at the present building. It would take some years to get money for such a building as would meet our needs at this rate. Let us hope that \$2000.00 can be added to the fund this year.

Teachers

There is every reason to be proud of the excellent work that is being done by the teachers in the village schools. Mrs. Matthews, Mrs. Newbert, Mrs. Davis, and Mrs. Smith, have all taught, not a few years, in

our schools and are highly efficient, not only interested in their school work but in the community as well.

At the beginning of the fall term there was a change of teachers in all but two of the rural schools; Libby, which was taught the spring term by Mrs. Crockett and she is continuing this year, and Stone, which is taught as last year by Mrs. French at her home, by special permission of the State Department of Education. At Highland, Millard Hart succeeded Mary Jameson. At Mt. Pleasant, Jennie Starrett succeeded Robert Simmons. At Oyster River, Shirley Castner succeeded Alena Starrett. At Pleasantville, succeeding Shirley Castner, Ruth Moody taught the fall term at the close of which she resigned, and Mrs. Kalloch is teaching the winter term. The unusual spirit of co-operation and hard work of these teachers has been gratifying and encouraging.

Altho the work of our inexperienced and untrained teachers has been up to the usual standard of such teachers, it is to be hoped, that with the present supply of teachers, the demand can be made the coming year, that all teachers have at least six weeks' training in one of the normal schools of the state or a year of experience or both. Last summer your superintendent was one of the instructors at the Farmington Normal School and what can be accomplished toward preparing a teacher to make a success of her work in a brief course of six weeks was to him a revelation. The cost of such a course is small. But \$5.00 a week is charged for room and board. The cost of books is slight and tuition is free.

Teachers' Meeting

Rural teachers' meetings have been carried on as usual, one meeting being held each month during the fall and spring terms. Two meetings worthy of mention were held this fall. At one of these meetings

Miss Louise Batchelder, representing Silver Burdett & Company of Boston, gave a most instructive and helpful talk on reading. On November 7th an "All Day Meeting" was held, the time being most profitably spent in visiting our excellent village schools.

Attendance and Tardiness

School attendance has for the most part been very satisfactory as is shown by the statistics for each school. In a few of the rural schools, however, it should be improved. As the State School Fund is now divided, every day that a child is in school means that he is helping to add to our share of that fund, and every day that he is not in school means that the town will not receive money which it would receive were he in school. Even more important than the financial gain to the town is the benefit to the boys and girls who will soon be citizens, and the better their education the better citizens they will become, and the better equipped will they be to live happy and useful lives in the community.

The instances of tardiness in most schools have been as few as might be expected. In a few schools, however, and in most cases, a few children have caused an unusual amount of tardiness. All tardiness should be stopped as this is unnecessary waste of the town's money.

Transportation

The same schools have been maintained this year as last and there has been but one change in transportation. Some of the children living on the road by George Wyllie's were small and walking more than two miles. For this reason it was necessary that they be transported. This has been most satisfactorily done by Willis Moody, who, when the travelling per-

mitted, used his depot truck.

The problem of transportation is one that is often misunderstood. In one instance when a child was not attending school it was found that transportation was expected altho the child lived but a half mile from the schoolhouse and no conveyance was used in that part of the town. Our State Commissioner of Education says, that under normal conditions there should be no question in regard to transportation if the distance is less than a mile and three fourths and most children might well walk a greater distance.

Health Work

The results of the Health Crusade work as carried on in schools have been far better than was anticipated. The most gratifying improvement has been in the care of the teeth. This has been made possible by the unusual co-operation of parents with the result that a very large percent of the pupils have been keeping their teeth clean.

The fact that of the hundreds of schools in the state doing this work that our Grammar school was one of the 46 schools in the state to secure a National Penant speaks highly for the efforts of the pupils and their teacher, Mrs. Mathews.

High School

High School, under the direction of Hazen Ayer of Union as Principal, and Miss Ruth Bessey of Deer Isle as Assistant, has been a real success. Both Mr. Ayer and Miss Bessey are graduates of University of Maine in the class of 1924 and have had special training for high school work. As is well known to all their work is superior in every respect. We feel especially fortunate to have in our high school such unusual teachers as they have proven themselves to be.

Conclusion

Words cannot express my appreciation of the unusual co-operation and courtesy that has been shown on every hand the past eight years by, Selectmen, Committees, Teachers, Parents and boys and girls.

Respectfully submitted,

FRANK D. ROWE.

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent, School Board, and Citizens of Warren:

As Principal of Warren High School during the present year, I submit the following report:

The school opened on the second day of September with forty-seven pupils enrolled. Since that time, three pupils have left school and one has been added, making the present enrollment forty-five. The average daily attendance during the fall term was forty-four and seven tenths, and, over the same period, thirteen students made the remarkable record of being present at every session. Since the winter term began, the noon recess has been shortened to a half hour, and the new plan has given general satisfaction.

Our first aim, as teachers, has been to improve, if possible, the scholastic standing. For the most part the response on the part of the students has been wholehearted and, therefore, encouraging. A creditable amount of work has been done, and we hope for continued improvement in the future.

During the fall term, thirty-four different citizens of the town visited your High School to inspect the work carried on. Eighteen of this number come during education week, at which time a program with outside speakers was arranged and an especial invitation was extended to all interested in the school.

This unusually large number of visitors has been a pleasing feature. Such visits are sure to aid both teachers and citizens. We should like, however, to have still more townspeople show a similar interest, and I take this opportunity to extend a most cordial invitation to visit the school at any time during any session.

Athletics have been conducted with the purpose of increasing school interest and spirit. The teams in track and basketball have made creditable records in scores, and, even more important, have shown clean sportsmanship in all contests. The athletic association started the year with a deficit of approximately thirty dollars, but at this time has entirely cleared up that debt and has, in addition, a balance of twenty five dollars in the treasury. Credit for this good work should be divided between the commendable initiative of the pupils and the unusual generosity of the townspeople, who have aided both directly and indirectly.

Both the senior and junior classes have added materially to their class funds. The senior play, "The Second Puncture", has been successfully given.

It is always easy to point out defects in existing conditions, and I do not wish, in this report, to do that unnecessarily. It should be clear to every voter, however, that the outstanding need of the school is a new building. Laboratory quarters are only half large enough; heating, lighting and ventilation systems are poor and general sanitary conditions are shameful. Two teachers must prepare fifteen subjects daily, and even then the curriculum is so narrow as to force each student to take three years French, for instance, whether adapted to this study or not. To broaden the curriculum, three teachers will be necessary, but the three teacher school is im-

practicable in the present building. It is my opinion, then, that every effort and sacrifice should be made to secure a new, modern high school building at the earliest time possible. There is no question about the natural, latent abilities of the young people in this community. Warren, like other towns, must reckon them as one of her most valuable assets, and the voters of the town will be wise in investing money to improve the educational opportunities afforded them.

Any report on the High School for this year must necessarily mention the work done by the assistant Miss Bessy. A more efficient assistant would be difficult to find. In securing her services the town is indeed fortunate.

I wish to mention here that Mr. Teague, both as trustee and janitor, has been untiring in his work. He has kept the physical condition of the building in the best order possible under existing circumstances.

Finally, I wish to express my appreciation for the splendid aid and cooperation given me by Mr. Rowe, school officials, townspeople and students. For this aid I am deeply grateful.

Respectfully submitted,

HAZEN H. AYER,

Principal.

SCHOOL STATISTICS Continued

The No. of pupils in all schools this fall term	233
The average attendance for fall term	222
No. of pupils not absent at any session one term	194
Instances of tardiness for all schools for year	1020
Visits by citizens for year	471

With the exception of the tardiness record the above figures are especially gratifying. The average attendance for this fall term was 95 per cent. The number of visits by citizens 471 shows unusual interest that is being taken in our schools.
